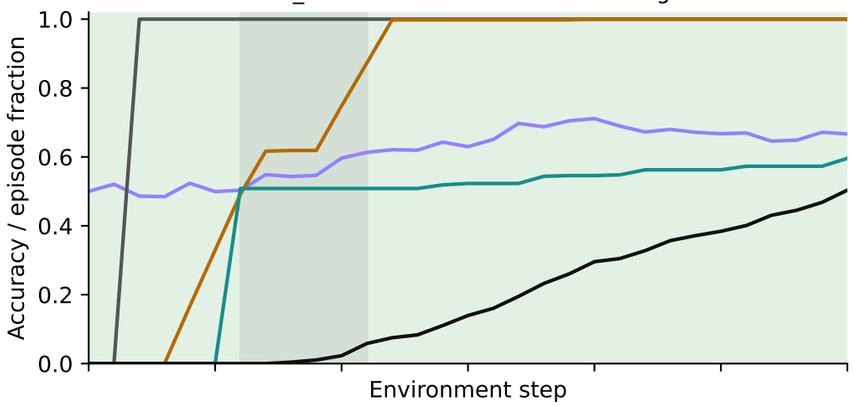
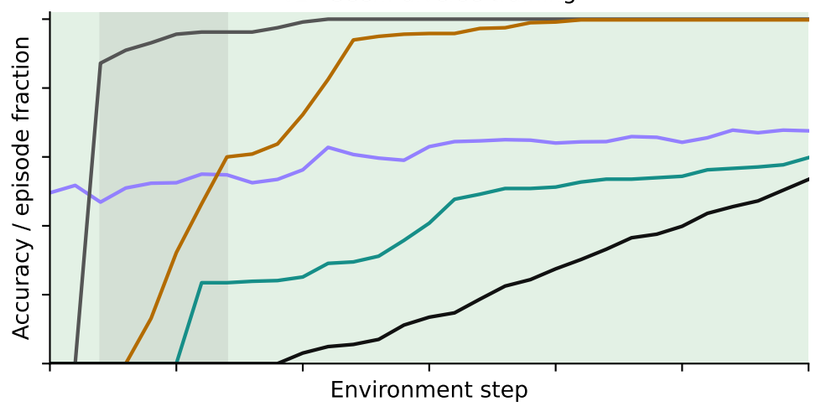
Unmasked action logits · decoding and reconstructed partner movement
Same baseline cohort validated through step30; five seeds; gray windows recomputed per representation

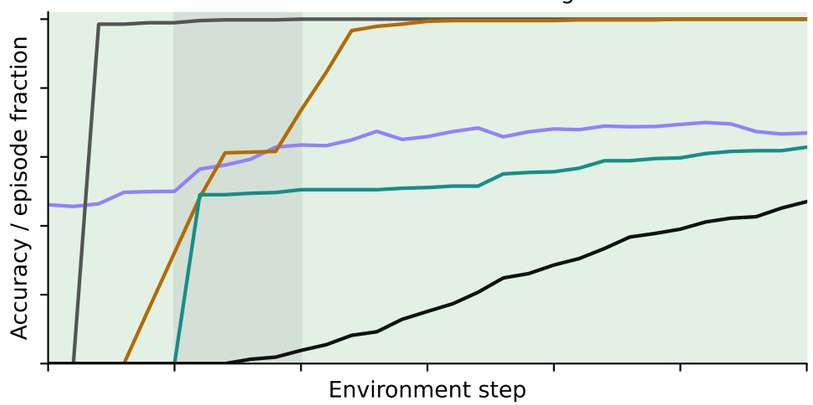
v1_matched · Seen: diverse training



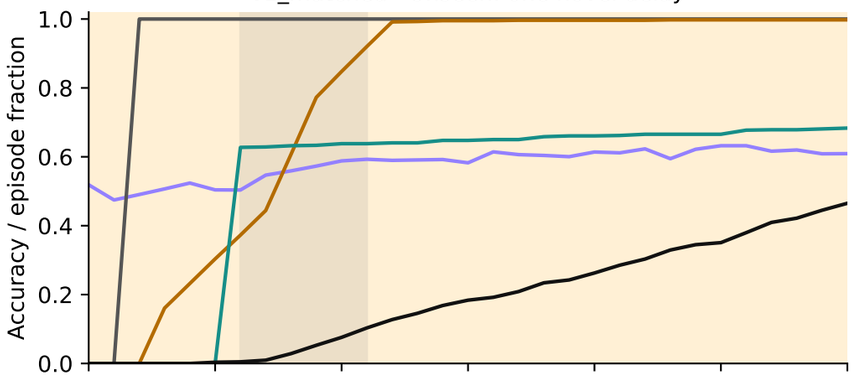
v2 · Seen: diverse training



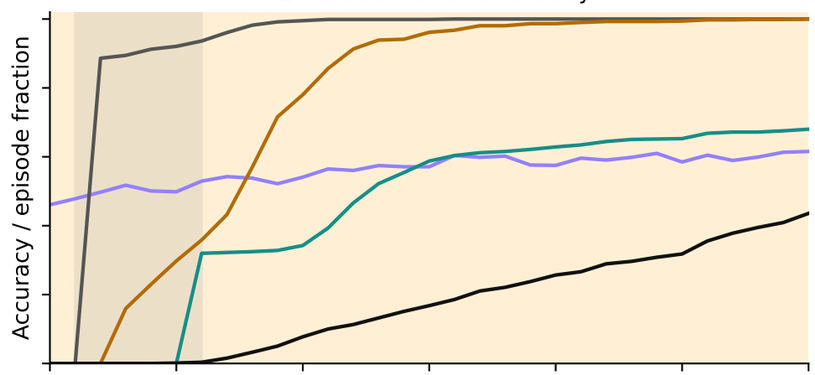
v3 · Seen: diverse training



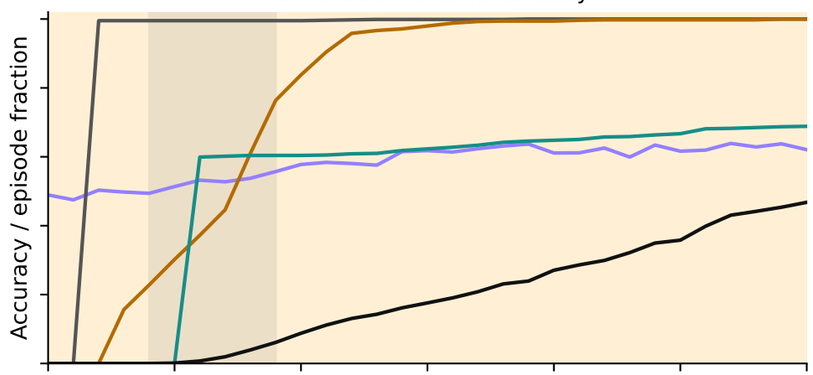
v1_matched · Unseen: one novel delay



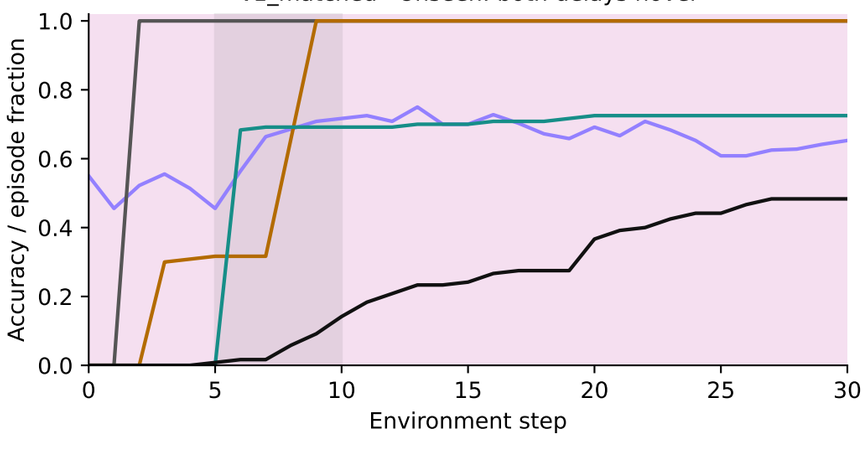
v2 · Unseen: one novel delay



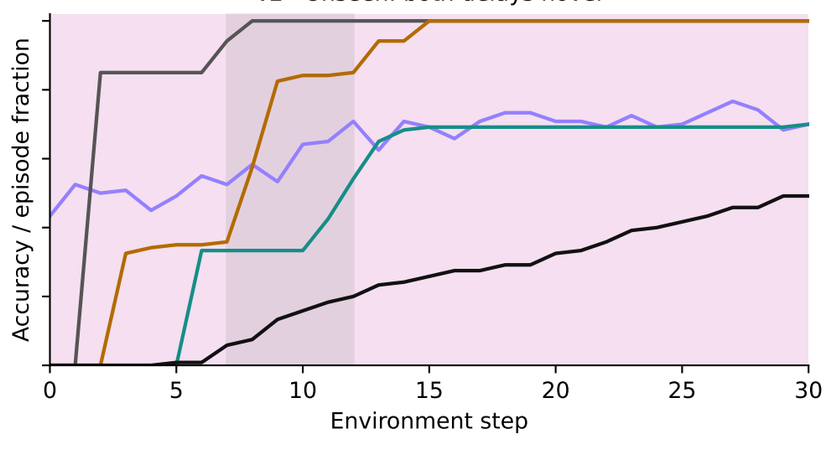
v3 · Unseen: one novel delay



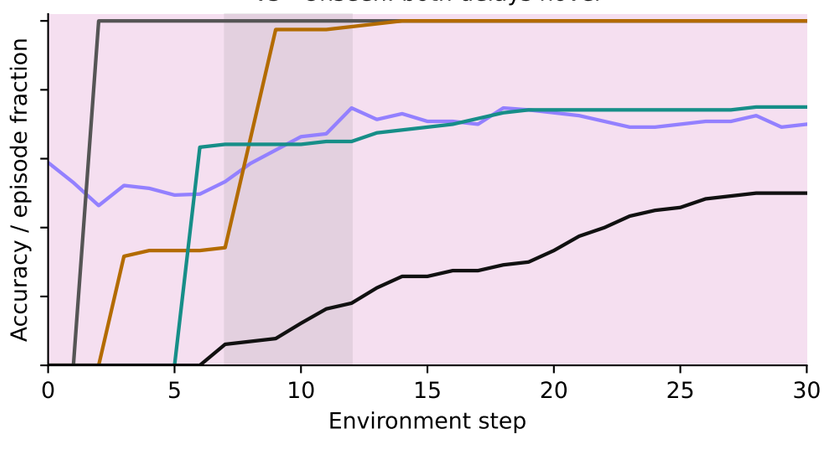
v1_matched · Unseen: both delays novel



v2 · Unseen: both delays novel



v3 · Unseen: both delays novel



Unmasked action logits decoding
First partner move observed
At least two partner moves observed
Four consecutive off-goal stays after a move
First round feedback already observed
