Training episode return · t0 fix + direct input · every seed

Seed 1 Seed 2 Seed 3 Seed 4 Seed 5

v1_matched | v2 | v3

MLP | RNN diverse-partner | RNN single-partner

Training return per 20-round episode

Collected environment steps (millions)

Each line is one seed. Trailing 46-update mean (3.01M steps); early windows use available updates.
Training partners: single-partner RNN uses (1,4); MLP and diverse-partner RNN use 24 profiles.
