

Strict released-code probes — All five training seeds: mean and 95% bootstrap CI

v1: commit at round start

Red delay (d_R)

v1: commit at round start

Blue delay (d_B)

Distance-aware test accuracy

Completed round (1-20)

Multi-partner RNN

Single-partner RNN

No-influence RNN

Released-code random baseline

v2: random start, can switch

Red delay (d_R)

Distance-aware test accuracy

Completed round (1-20)

Multi-partner RNN

Single-partner RNN

No-influence RNN

Released-code random baseline

v2: random start, can switch

Blue delay (d_B)

Distance-aware test accuracy

Completed round (1-20)
